Andrew:

Thank you very much for your email. I greatly appreciate your heads up on the timing for the delivery of the documents, and we look forward to reviewing your response.

-Mark

Mark,

Following up on your email below and our subsequent discussions, attached please find electronic copies of a cover letter and privilege log that, along with approximately 20,000 additional pages, are on their way to via Federal Express. Mark Wilder now at EPA Region 8 and represent CFAC's first production in response to EPA's 104(e) request for the Anaconda Aluminum Company Site, Flathead County, MT. I sincerely apologize that this production is slightly tardy. Due to the weather in Montana earlier this week, the Federal Express pick up of the documents that was scheduled for Monday didn't occur until today. They should arrive at EPA by Friday, November 14. Please contact me if they do not.

Please feel free to call me if you have any questions or would like to discuss.

Best regards,

Andrew

Subject: Anaconda Aluminum Company Site, Flathead County, MT, SSID #A8-82 - CERCLA 104(e) Request for Information

Andrew:

Thank you for your call yesterday regarding the EPA's 104(e) Information Request relating to the Anaconda Aluminum Company Site near Columbia Falls, Flathead County, Montana.

I would be happy to discuss the Information Request on Friday when you return to the office. In the meantime, I wanted to respond to your two requests in the voicemail message you left for me. First, with respect to an extension, the EPA appreciates Columbia Falls Aluminum Company's cooperation with the Information Request and the EPA is willing to grant a 30-day extension to facilitate the response. This is to confirm that the EPA approves Columbia Falls Aluminum Company's extension request to November 10, 2014, which includes the initial 30-day period plus an approximately 30-day extension.

The EPA asks for Columbia Falls Aluminum Company's cooperation in producing whatever responsive materials are available on November 10, 2014 at the end of the 60-day period. If Columbia Falls Aluminum Company needs additional time at the end of this 60-day period, please contact me to discuss the reasons for an additional extension.

Second, in regard to narrowing the scope of Question #7 regarding environmental conditions at the site, we are not prepared at this time to narrow the question. The EPA is in the preliminary stages of collecting information about the environmental conditions at the site, and we do not want to prematurely screen out relevant information on environmental conditions by limiting the scope of the question at this time.

I greatly appreciate your client's good faith efforts to respond within the timeframe indicated above, and welcome any updates regarding Columbia Falls Aluminum Company's progress in responding to the Information Request. Again, I would be happy to discuss the EPA's Information Request with you once you return to the office. My direct dial number is 303-312-6177.

Thank you.
Mark Chalfant
